

Australian Government

The Child Care Rebate helps meet the cost of child care.

Make sure you check your eligibility.

The Australian Government offers two types of financial assistance for child care: the Child Care Benefit and the Child Care Rebate.

Even if you don't receive the Child Care Benefit you may still be eligible for the Rebate.

It pays up to 50% of your out-of-pocket expenses per child per year up to an annual cap.

The Rebate helps to cover the costs of any approved child care, including out of school hours care.

If you use approved child care for work, study or training, you should check your eligibility.

For more information on how you can claim what you are entitled to visit australia.gov.au/mychild or call the Family Assistance Office on **13 61 50**
